# **INSTRUCTIONS**

## **Materials:**

- Board game, counters and dice.

## **How to play:**

1. Players start at the 'Start' position.
2. Each player takes their turn to roll the dice.
3. Players move their counter forward the amount displayed on the dice.
4. When your counter lands on a question you must write the answer on the sheet along with your initials in the box you have landed on.
5. Your opponent must agree you have the correct answer before taking their turn.

**If you do not know the answer, put your initials in the box but leave the answer blank.**

6. When you reach the end you move back to the start again.
7. Everyone keeps playing until all squares have answers in them.
8. If you land on a square already answered you still need to say the question and answer.

## **Objective of the game:**

**The person with the most squares answered correctly wins.**
