

## Making my own headdress - collecting materials

Over the past few weeks we have been looking at the history of headdresses and researching different headdresses as well as planning our headdress.

Your task this week will be to collect all the materials you need for your very own headdress. It could include any of the following: interesting leaves or twigs you find in your garden or at the park, shiny sweet wrappers, lids from bottles and coloured paper. The list is endless! Before your household throws anything in the recycling bin, have a look and see if it would be useful for your headdress. Remember to wash any waste thoroughly before you start to use them!

Headdress made using recycled boxes cut into feather shapes. Great idea!

Collect as much as you can as next week we will be starting to make our headdress!
