

TRANSITION TO YEAR 4 SUMMER PROJECT

Thank you for all your hard work and commitment with the home learning in these challenging times. During the summer break, you will no longer be expected to complete the daily home learning tasks, however remember to read and practise your times tables twice per week. Below there is an optional summer project which you can take part in if you would like to.

Have a Great Summer and stay safe!

YOU HAVE HOPPED ABOARD A TIME MACHINE AND TAKEN A TRIP BACK IN TIME TO ANCIENT EGYPT. For your summer project, you need to do a bit of research on Ancient Egypt. Once you have gathered enough information,

DESIGN YOUR OWN TUTANKHAMUN'S PYRAMID!

What to include:

- 3D Pyramid
- Hieroglyphics
- Canopic jars:

These may be hand drawn; small stones painted, photographs, or created using a plastic lid and a bit of a dough...

- Sarcophagus:

YouTube has loads of tutorials!

- A Cat
- Jewellery:

Be creative and make them using resources you have at home, remember they must fit into your pyramid!

Putting all together:

When you gather all the resources, think how you will make your pyramid. Will it be half-open; movable ect. No pyramid is complete without decoration! Feel free to use stickers, letters, markers, watercolours, felt tips, pencils, glitter.... to give your pyramid a special touch, just remember to keep it Egypt themed!

Here are a few ideas: 3D model, video documentary, a painting, diagram, information book, PowerPoint presentation.

We look forward to seeing your designs!
