

Year 5 & 6 Philosophy for Children

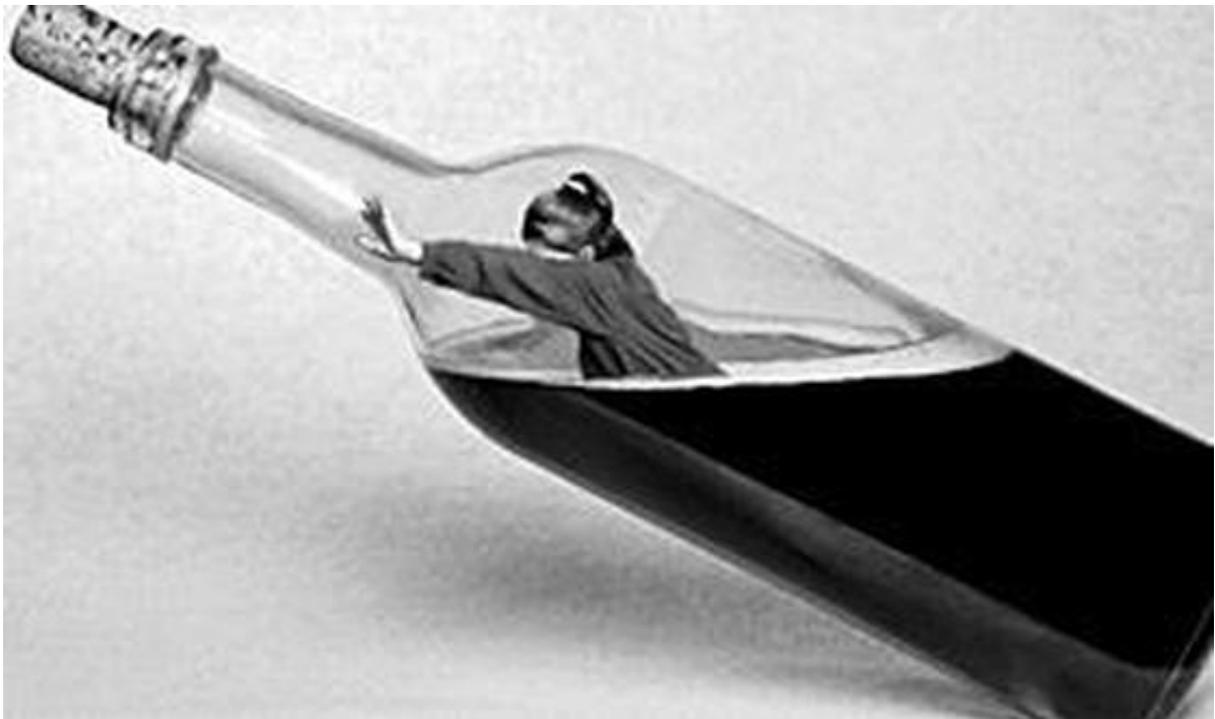

Dear parents,

This week, I am going to share an image for you to look at with your child and you could do some more P4C as a family at home. Here are some questions you could ask them:

- What does the picture make you think about? Any first thoughts/ideas/themes (You could share what it made you think about too!) E.g. freedom, love, fear, reality
- Could you think of a question about one of the ideas/themes that the book made you think about? E.g. Can you ever actually be free?

Then you could have a chat about the question you chose together, the one you think you will have lots to talk about together.

Here is your image

Some big ideas the children may think of (although they may think of lots more): Freedom, reality, escapism, feeling trapped,

Questions you may want to discuss: Can you ever really be free? Why do we sometimes feel as though we are trapped?
