

FUN FINGER PAINT AQUARIUM ACTIVITY

Use your fingers to paint different ocean creatures.

What you need

- Water based paint – mixture of colours
- Blue card – A4
- Paint pens or felt pens
- Paper plate
- Sponge

What to do

- 1** Start finger painting! Print individual finger prints over the card. Of course if you prefer you can use a sponge or brush, instead of fingers. Use hand under hand if necessary

- 2.** Use pens, brush or fingers again to draw eyes, fins and features onto the coloured finger prints. Make the finger paints into fish, turtles, crabs, jellyfish, octopus, anything you imagine.

3. Add some seaweed and rocks. Stick on some tissue paper to make seaweed and use the sponge to paint rocks.

NOW YOU'VE CREATED AN AQUARIUM!
