

TOPIC

To conclude our topic on South America, this week I have attached a word search and quiz all about South America.

I also thought it would be fun to research different food from South America and make a menu for your own restaurant!

Your tasks:

- Complete the **word search** and **quiz** on South America
- **Write a menu.** Research traditional South American food, choose a starter, main course and dessert (you can add a price if you want, but make sure you use the correct currency!)

Example of a Menu

Have a look at the menu opposite, think about what have they done to make it look appealing? How would you improve it?

Design your own menu, using traditional food found in South America, you can even design your own restaurant logo!

Have fun and we look forward to reading your yummy menus!
