

EASTER FUN!

Are you bored and fed up at home?

Want something exciting to do?

Try this toilet roll character activity!

- Your challenge is to create your own 3D artwork in response to your favourite movies, using empty toilet roll/kitchen towel tubes as the starting point.
- You can use whatever materials you like, that you have at your disposal (pen, pencil, paper, recycling, paints, colour pencils, felt tips etc).
- You can add to, remove parts of the tube/s.
- You could explore the characters, soundtrack, setting, genre, location, quotes etc to inspire your pieces.
- We suggest drawing a plan before you start using your research.
- You can get together with members of your family to create ensembles.
- There is no limit to how many you create and send us.
- Photograph your pieces with backdrops to show them off at their best.
