HOMEWORK

Level 1

LEVELED HOMEWORK

Level 1

Thank you for purchasing this massive resource. This resource contains 36 weekly homework packets. Print once, make copies, and your prep work is done. Homework for the entire school year! It's that simple.

Included in this packet is a parent letter to explain the importance of homework and the method of completing homework each night. Send to parents at the start of the school year. Each homework packet can be copied double sided. Send home one page a week - there is a section for each day of the week. This product will last you seamlessly from August to June! Enjoy!

Use the Colour & Number Guide as a mini reference guide for students still mastering those concepts.

Dear parents,

The home/school connection is so important for all children. Daily homework is a great way to generalize learning and maintain skills. Daily homework will also allow you to be actively involved in your child's learning.

Each week, we will send home a weekly homework page. There is a section for each day of the week. Please work with your child to complete each day's section. Try to let your child complete as much as they can on their own. The goal is independence! The repetition and structure of these weekly homework pages will help your child gain familiarity with the process and work. Please send back the homework each day for me to check at school.

If you have any questions or concerns, please let me know!
