

Look at the pictures and note down your opinion

- What do you like or dislike?
- Which is your favourite?

These pieces of art are all created by Andy Goldsworthy, his art **focuses on nature** so he uses **raw materials** that can be found outside like **petals, stones, twigs, pinecones and icicles**.

He also only uses his bare hands, teeth or tools that he has found to create his art

What could you use to sculpt art if you didn't have scissors, paintbrushes or crayons?
